

Three Research Fellow Positions in Taiwan

Tenure-track positions in Climate, Atmospheric Chemistry, and
Oceanography

Research Center for Environmental Changes, Academia Sinica
TAIPEI, TAIWAN

The Research Center for Environmental Changes, at Academia Sinica, invites applications for three tenure-track research fellow positions at the rank of assistant research fellow or above in the following three fields.

- 1) Diagnostics and modeling of climate variability and change, and climate model development;
- 2) Atmospheric chemistry, particularly relevant to changes in regional atmospheric composition and air quality;
- 3) Oceanography, particularly in the areas of marine biogeochemistry, biological or chemical oceanography, ocean color remote sensing, and biogeochemical modeling.

The positions, one for each field, are expected to begin in 2016. Ph.D. degree is required and post-doctoral experience is preferred. Application materials should include curriculum vitae, 3 major publications, future research plan, and the names and contact information of three references. Please email the application documents by October 15, 2015 to:

Dr. Huang-Hsiung Hsu
Chair of Search Committee (also contact of **Climate** position)
Research Center for Environmental Changes, Academia Sinica
No. 128, Academia Road, Section 2, Taipei 115, Taiwan
Tel: +886-2-2652-5173; Fax: +886-2-2783-3584
E-mail: hhhsu@gate.sinica.edu.tw

Applicants for the position in **Atmospheric Chemistry** should also send a copy to Dr. Charles C.-K. Chou (ckchou@gate.sinica.edu.tw).

Applicants for the position in **Oceanography** should also send a copy to Dr. Tung-Yuan Ho (tyho@gate.sinica.edu.tw).

Questions about the positions may be emailed to the related contacts shown above. Full description for the Research Center for Environmental Changes, go to <http://www.rcec.sinica.edu.tw/>. A confirmation message will be sent to applicants once the material received.
