

國立中央大學大氣科學系徵聘教師公告

Faculty Position Announcement

Department of Atmospheric Sciences, National Central University

The Department of Atmospheric Sciences at National Central University seeks one to two faculty members in the areas of weather, climate (earth system), or atmospheric physics and chemistry, at the Assistant, Associate or Full Professor levels. Applicants should have a Ph.D. degree, preferably with postdoctoral experience, cross-discipline research capability, and teaching experience. The position will begin in February 2022 or August 2022. Application should be submitted through the Academic Jobs Online by including (1) curriculum vitae including publication list, (2) statement of research interests, and (3) statement of teaching experience and interests. The applicant should also arrange three letters of reference that sent directly from the recommenders. All application material should be submitted by May 30th, 2021.
